Custom Crafted Doors & Components

We craft Dependable

In 1964, Conestoga Wood Specialties was born in a small garage in rural Lancaster County, PA...a unique place where family so often is the driving force behind business success. It's behind the work ethic that has enabled Conestoga to craft the finest cabinetry doors and wood components in the industry. And most important, it's behind our passion to treat each customer like family.

Those who know Conestoga understand that the word used to describe us has always been dependability. They know that they can depend on the quality and beauty of our materials...on the painstaking precision of our craftsmanship...on the knowledge and helpfulness of our people...and on our unrivaled record of complete and on-time delivery over 99% of the time.

Absolute dependability is what has made us special in our industry. It has made us number one...but only because we are driven to make you number one, every single day.

Thermo Structured Surfaces

The Strata TSS offering has taken texture and color to new design heights. Featuring some of the industry's most intriguing face grain textures and a palette that includes over two dozen of today's most desirable colors, Strata TSS redefines modern for the modern homeowner.

Doors shown in Oregon Pine (LK84).

STRATA THREE-PIECE

STRATA FIVE-PIECE

High Gloss Surfaces

Our Synchronicity High Gloss program raises gloss desirability by a factor of three. From an array of solid colors to attractive wood grains and intriguing patterns, our three gloss material options are each crafted with their own unique qualities, establishing multiple price points...but all offer exceptional durability, heat and scratch resistance, UV protection from color fade, and easy cleaning and care.

Access Success

What's better than a place for everything and everything in its place? For those who demand organization, practicality, and ease, it's all about fingertip access. It's what you need being precisely where you need it to be... convenient as a simple turn here, a quick and easy reach there.

Range Hoods

There is something about range hoods that makes them a special element in the kitchen. Their very nature gives them the ability to become a truly uncommon focal point of the room. For this reason, we continue to place uncommon emphasis on expanding our range hoods to offer new and exciting mantle designs, transitional hoods, elegant European styles, island hoods, and much more...all in sizes to accommodate nearly any space.

Kitchen shown with E-Series range hood.

Incomparable Integration

Enhancing cabinetry with carved accents and functional accessories is all about personal taste. Some desire the distinctively ornate... others, simple and understated. Some feel it in that middle ground. But it's the flawless integration of these complementary components that makes all the difference...that seamless blending of the perfect touches that invariably evokes the resounding response, "yes...that's it. That's exactly right!"

Lasting First Impressions

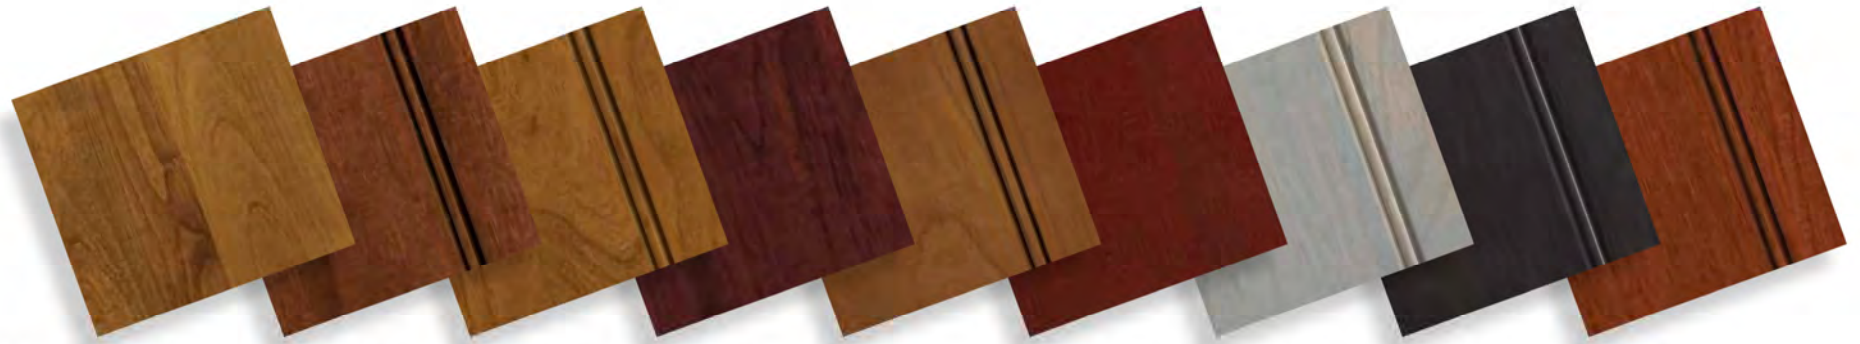

The finishing touch of our craft is always the first image that meets the eye. That's why we've gone to great lengths to be the finish leaders. Whether it's a clean and simple painted effect, or one augmented with an intriguing glaze, or an unusual stain that captivates the viewer, our finishing skills are unparalleled. With well over a thousand finish options and custom creations, the possibilities are limited only by the imagination. Painstakingly hand applied or using the latest finishing technology, and sealed to preserve the beauty for a lifetime.
